

Personal Letter Template - offered as a way to introduce United Earth to your friends and contacts. Please copy and paste the following text into your email, below a personal introduction - with the suggested subject: United Earth - An Open Invitation for Co-creation - and don't forget to add your signature!

I am excited to share with you what I consider to be an intelligent and empowering step towards a healthy, peaceful, free, diverse and abundant world for everyone.

It's called **United Earth** and it's basically a global platform for all people and groups working and dreaming for a better world, to unite and co-create *a whole-systems transformation of human society*.

Yes, it's a HUGE vision! And yet, when I explored the website I could see that *it is absolutely possible*. The United Earth platform is largely based on the fact that there are currently hundreds of millions of people and hundreds of thousands of organisations all over the world who are all essentially working for the same thing. And, since we're practically all connected to the Internet, it seems clear that co-creating *the more beautiful world our hearts know is possible* is simply a matter of collectively choosing it.

Please check out the United Earth website (<https://united-earth.vision/en>) to find out more, sign up and *get involved*. The platform is just getting started, which gives us a privileged opportunity to play a key role in catalysing the biggest intentional unification and conscious collaboration in human history!

The change we seek is in our hands - when we join them together!

Sincerely,
