

THE CONFERENCE OF THE MOVEMENTS

THE COM21

DECEMBER 9TH, 10TH & 11TH 2015

ROTTERDAM, THE NETHERLANDS

- OFFICIAL REPORT -

A Brief Introduction

The Conference of the Movements - COM21 - was organised by **United Earth**, an emerging open, inclusive, equality-based and solutions-oriented global platform for all people and groups creating a better world, to unite and collaborate towards a whole-systems transformation of human society. For more information about the planetary co-creation of our United Earth please visit www.united-earth.vision.

Overview of the Conference

On December 9th, 10th & 11th, 2015, change-makers, visionaries, grassroots leaders, technological innovators and an Indigenous Elder gathered in Rotterdam, Netherlands. Converging from a diverse range of international organisations and movements, our collective intention was to explore the possibilities, challenges and strategies for inspiring and facilitating greater unity and collaboration among all people, and groups working for a peaceful, just, healthy and abundant world.

During the final weeks of preparation it became clear that this “conference” was evolving into a co-creative design lab - think-tank - incubator for catalysing unprecedented unified and collaborative action on a planetary scale.

The first morning began with a beautiful tree planting ceremony where we were joined by local children in sharing and “planting” our intentions for a harmonious future. Next came a 90-minute presentation of United Earth including a brief history, creations to date and the proposed next steps. Immediately the feeling of ***It is time!*** permeated our conversations and our understanding. As the shared visions and ideas unfolded, each activity and presentation brought forth a blossoming of insights and connections, harmonising and activating the group, and

creating a seedbed of collective wisdom and collaboration with synergistic and synchronistic precision. Looking back, the COM21 exceeded our hopes and expectations as all participants effortlessly aligned around our common intention to unite and work together.

By the end of the two day gathering we all knew that something momentous had taken place. Each of us left highly energised, clear and committed to our next steps of practical action.

Altar for our Future Generations with a Children's Fire

Feeling a strong sense of alignment and Oneness

"A snapshot of some of the participants attending the recent COM21 (Conference of the Movements) that just took place in Rotterdam, December 10-11, that I had the great honor and pleasure to attend... This Gathering focused the sacred, social and technological solutions for weaving together a 'movement of movements'. Not providing THE answer, but offering a beautiful seed crystal into a growing web of aligned and resonant heart-based relationships... The time is now for a new kind of social synergy on Mother Earth as we move further into a global spiritual rebirth. Uniting the deep Indigenous wisdom of our elders with the genius of the new consciousness using more enlightened technologies, it is very clear we are poised for a wonderful global changing breakthrough!"

- from a facebook post by Chief Phil Lane Jr.

Key Points of Reference and Guidance

During the gathering several key guidelines came to light. All the information was received in a spirit of receptivity and understanding that “everything is in draft and in process”.

The 16 Guiding Principles as highlighted in the highly relevant and insightful paper [Deep Social Networks](#) by Jon Ramer and Phil Lane Jr. were unanimously adopted as (indeed) guiding principles for our co-creation. Additional guidelines can be found in [Common Ground](#) as outlined in the United Earth Wiki.

[**Alignment Beyond Agreement**](#) was another cornerstone piece of information. The vision of bringing together a vast and diverse range of people and groups inherently implies that we will be confronted with a multitude of conflicting opinions. What is most important, however, is the recognition that we all share the same intention: to work together to create *the more beautiful world our hearts know is possible* (Charles Eisenstein). By gathering around this simple intention as our universal connector, we can more easily allow for the diversity of opinions, ideologies and methodologies to co-exist with equal validity.

The spirit of quest generates open and evolving dialogue-in-action. Participants of a quest bring in diverse points of view while remaining united in the same quest. When they jointly choose a course of action, they know that the choice is a tentative mutual agreement, to be modified, altered, or even discarded along the way. The question is not “who is right” but “what is best” for the fulfillment of the intention.

- Excerpt from Yasuhiko Genku Kimura [Alignment Beyond Agreement](#)

Pre-cognitive Natures (PCNs) was brought in by James Parker from One People One World. Understanding the patterns of how different personality types respond to information is another pertinent tool in devising a platform that aspires for a universal appeal. [This video](#) with Grant Dive from OPOW shares more information about PCN, and has appeared in multiple UE communications. Myers Briggs Type Index, based on Jungian Archetypes, has also entered the field.

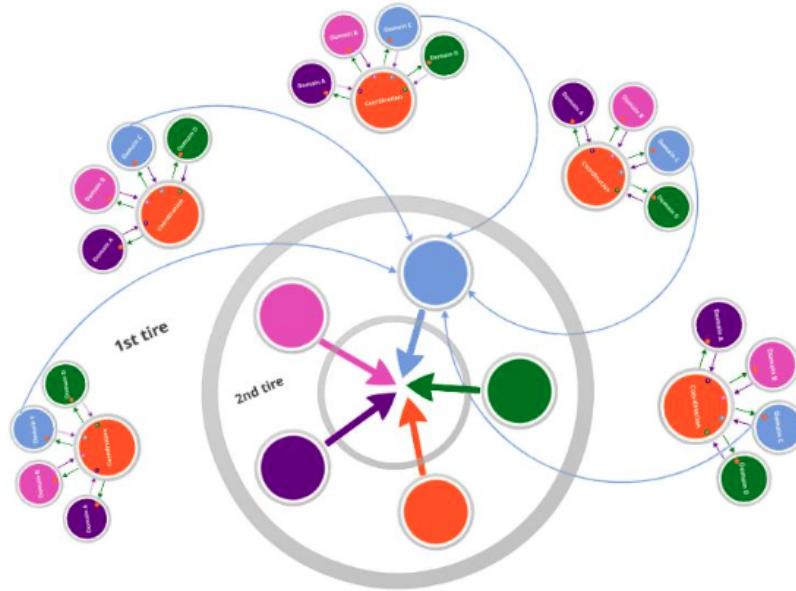

[**The Global Transition Plan**](#) was shared as another important meeting ground for interdisciplinary collaboration. The plan that is offered on the website is an open document for everyone to feed in their ideas (without going into too much detail). By providing a practical overview of a lucid and progressive whole-systems transition, that skillfully integrates indigenous wisdom with the emerging new paradigms and innovations, people can more easily understand, relate to, and engage in the Global Renaissance that is upon us.

[**Sociocracy 3.0**](#) provided valuable insights into how United Earth can structure itself at the global level using a fractal organisation pattern. This pattern allows for effective, scalable and horizontal collaboration among teams with a common intention.

Noomap's Metta Social Architecture also provided valuable insights into “a 21st Century Confederation Model”. Metta Alliance is a decentralized and distributed social architecture that is based on a fractal whole system design of sovereign communities and individuals who share a Vision to create a planetary global platform upon which all of us can gather and empower our Emergent Synergistic Network (ESN - a name given to all intentionally aligned people and groups co-creating a global and collaborative cultural transformation). Metta Alliance works in unison with Noomap technology and invites us all into a state of alignment beyond agreement through our Planetary Community of Metta Intentions.

Fractal Organisation Pattern

For Networks wishing to Optimising Flow of Information, Learn and Align

A number of organisations (or teams) with a similar Driver wish to learn from each other's experience.

United Earth and Noomap

United Earth and Noomap have been collaborating since July 2015, but never had the teams met in person before the COM21 (as was the case with many of the United Earth team members!). The synergy here was palpable as the intentions and resonance between the two teams flowed effortlessly. For most of the core members it was clear that Noomap was to be the core technology for the platform and it seems that Noomap and United Earth are indeed one, even though both the Noomap technology and the United Earth platform are completely open for wider inclusivity and co-creation.

Actions and Next Steps

Through our open spaces we defined 6 primary intentions for our next steps:

1. Networking & Database Organisation
2. Online Festival in March
3. Producing a new United Earth Video
4. The Next Gathering in April
5. The Global Transition Gathering in June
6. Co-stewarding Noomap to serve the Emergent Synergistic Network (ESN)

1. Networking & Database Organisation

Over the past six months we have been actively connecting and networking with a diverse range of change-agents and groups around the world. Many groups have offered to spread the word throughout their networks that ***United Earth is Happening!*** Over 150 volunteers have signed up through the feedback form (released in August 2015) and through the website!!

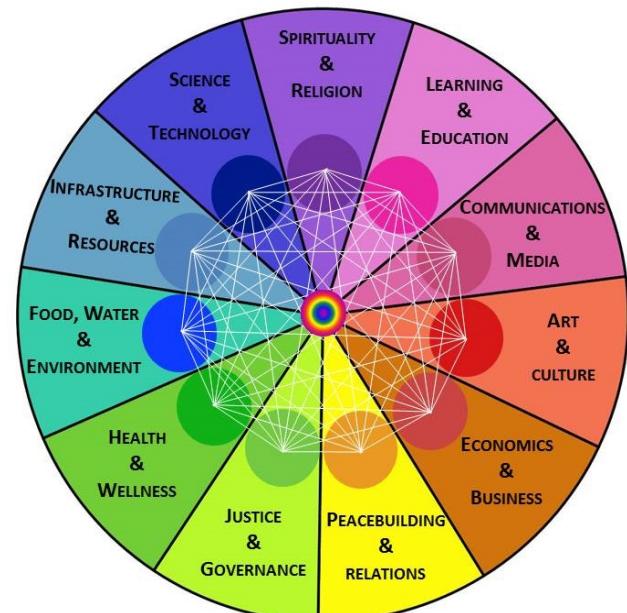

Having been propelled into action through a series of events that culminated in a whirlwind tour of fringe events at the COP21 in Paris and finally the COM21 in Rotterdam, we now need to revisit the many groups who have shown their enthusiasm and support and continue strengthening our personal relationships. We are continuing to develop our networking and promotional strategies and materials.

We also need to urgently streamline our database management and coordinate effectively with all our new co-creators! If anyone feels to share any knowledge or skills in this department you are **most** welcome!

2. United Earth Global Transition Festival - Sharing Solutions with the World - Culminating in the Official Launch of the United Earth Website

This event will begin on the equinox, March 20th, 2016 at 12PM GMT and will continue for 24 hours. Each hour will be dedicated to one of the sectors of the Wheel of Co-creation and will explore corresponding transition strategies, solutions, and living examples of conscious transformation. Presentations will include talks by field-leaders, poetry, music, art and videos. This global awareness-raising event will culminate in a *Thunderclap* of the Global Unleashing of the United Earth Website.

3. Producing a new United Earth Video

In Paris we conducted interviews at The Tribunal for the Rights of Mother Nature, Place to B and The Global Landscapes Forum. We spoke with organisers, speakers and activists, asking them about the possibilities for planetary unity and collaboration. Between the Paris footage and all that we gathered during the COM21 and the Zeitgeist Meetup (see below) we have a wide variety of material to create a truly inspiring short video that will play a key role for spreading the word.

4. The United Earth 2nd International Co-creation Convergence

This event is essentially the next COM. We renamed it to highlight the spirit of co-creation. The Convergence is scheduled for April 20-23, 2016, at the same location, and will certainly attract a wider range of groups willing to collaborate to continue realizing our common intention. We look forward to making this event even more memorable and impactful than the first!

5. The Global Transition Gathering

This global event is scheduled for June 21st, 2016. The vision is outlined [here](#).

6. Co-creating Noomap. Visit our [website](#) and watch the [intro-tutorial](#) to create an account; then stay tuned for [more video tutorials](#) which will guide users through a journey into the Noosphere, co-creation, gift consciousness and United Earth. Through this process (or contact us directly through email) everyone is invited to co-create Noomap. We were well received by the Zeitgeist community we workshopped with - it's time to invite more coders and developers, UI specialists, communicators, etc. We invite you to share this message in your networks if you feel they would be resonant and inspired to co-create with all of us.

Noomap has been invited to Greece by the EU Zeitgeist team to present to approximately 400 people at the end of March. Along with United Earth, Noomap will continue making its way from prototype forward as the planetary community begins gifting itself. This technology will be a direct reflection of our unified Alignment Beyond Agreement. As we awaken so does the Noosphere, and Noomap, and so it goes.

People and Groups Present

Skype with Jon Ramer

Name	Organization
Anthony Jacobi	The Meesteren Foundation / United Earth / The Zeitgeist Movement (TZM)
Annette Fry	Grandmother's & Supporting Women's Council
Aansan Yeh	Synergistic Earth Network
Chief Phil Lane Jr.	The Four Worlds International Institute / Critical State of our Mother Earth Declaration
Shannon McArthur	Grandmother's & Supporting Women's Council / United Earth
Chris Larcombe	Noomap /Metta Social Architecture/ United Earth
Bret Warshawsky	Noomap /Metta Social Architecture/ United Earth
Robert Schram	The Meesteren Foundation / United Earth / TZM / Free World Charter
Jean-Pierre Saulnier	Mouvement pour le Paradisme
Michel Morvant	Mouvement pour le Paradisme
Maryline Canin	Mouvement pour le Paradisme
Rajesh Makwana	Share the World's Resources
Lisa Feldman	Grandmother's & Supporting Women's Council
Miriam de Vos	United Earth
Thorsten Wiesmann	Share International / Stop Reset Go
Karin Lindeman	Four Worlds Institute Europe
Anne-Marie Voorhoeve	The Hague Center for Global Governance, Innovation and Emergence, the Club of Budapest International and Netherlands; Integral City Meshworks; Center for Human Emergence NL; Global Purpose Movement
Adam Goldman	Backfeed
Nicholas Ziglio	Knowmads Business School
Yan Golding	United Earth / The Great Unification / Transition Town Lagos
Jeroen van Beele	Guts4Roses
Jean-Philippe Huber	Mocica Project

Via Skype

Heidi Little	International Children's Month / United Earth
David Kam	Earth Dollar / United Earth
Jon Ramer	Compassion Games
James Priest	Sociocracy 3.0
James Parker	One People One World

We also received several other guests including some local officials, and many more people and groups around the world were tuning into this event. The only glitch we faced was that the live-stream didn't work properly, but this will surely be rectified in our events to come...

United Earth European Headquarters in Rotterdam

Moving Forward... The Zeitgeist Meetup

The COM21 event was immediately followed on by a 2-day European Meetup of The Zeitgeist Movement. Here we could taste the power of the United Earth/ - Noomap alliance! First Chris and Bret totally blew the audience away with the Noomap presentation and then Yan wove the bigger picture together with the Blessed Unrest video, some poetry and a sprinkling of solutions-awareness. The shift in energy could be felt by everyone and even TZM team-leaders, who had initially been joking about "new age hippies", seemed very inspired by this "new" possibility that guided us all into conversations about the evolution of consciousness.

Reflections from the COM21 Participants

[Here's a link](#) to some of the enthusiasm that is rippling out from the COM.

How Can You Get Involved?

United Earth is an open invitation for co-creation. You are all welcome to share your passions and to explore how this vessel for a citizen-led cultural transformation can support your cause and gift to the world!

Simply go to www.united-earth.vision to add your voice for global unity and collaboration. Signing up as a group and / or as a co-creator is equally easy. And as a co-creator you are invited to sign up in Noomap so you can help to put this new paradigm, sacred technology to its best benevolent use!

Unleashing Our Financial Abundance

Thus far United Earth has been primarily coordinated by three full-time unpaid volunteers. In light of the current developments it is becoming clear that to continue our work we need a team of at least 10 full-time and paid co-creators. Consequently, through this **[empowered fundraising invitation](#)**, we are sharing a vision to unleash the financial abundance that wants to flow through United Earth. This vision also includes a vision for the United Earth HQ that will in many ways resemble the [Omni Commons in Oakland, California](#) (check out the inspiring 4 min video).

We are sharing this vision with you while it is being drafted so please feel free to feed in your ideas and comments. Check out the vision [here!](#)

Sharing is Caring

Our United Earth is manifesting through heart-felt enthusiasm and inspiration. If this article has inspired you then please gift it forward.

Gratitude

A MASSIVE Thank You to all the inspiring and creative participants of this historic COM21 - and we would like to extend an extra special thanks to the Meesteren Foundation for making this event possible!

In unity and collaboration,

The Blossoming United Earth Co-creation Team
